

RAV4 5-Türer 02/06 → 03/13
RAV4 5-Door 02/06 → 03/13

Bei unsachgemäßer Anwendung oder Veränderung des Elektrosetsatzes bzw. der darin befindlichen Bauteile erlischt jeder Anspruch auf Gewährleistung. Beim Fahren ohne Anhänger oder Ladungsträger müssen ggf. verwendete Adapter immer aus der Steckdose entfernt werden. Änderungen bezüglich Konstruktion, Ausstattung, Farbe sowie Irrtum vorbehalten. Alle Angaben und Abbildungen unverbindlich.

Für technische bzw. elektronische Änderungen, welche nach erstmaliger Inbetriebnahme des Elektrosatzes vom Fahrzeughersteller durchgeführt werden und beispielsweise zu Fehlfunktionen der Anhängersteckdose oder deren Peripherie führen, übernehmen wir keinerlei Gewährleistung!

All claims under the guarantee will lapse in case of improper use or modification of the towing electrics kit or any of its component parts. When driving without a trailer or load carrier, any adapter installed must be removed from the electrical socket. We reserve the right to alter the design, content or colour. We accept no liability for any errors in these instructions. All details and illustrations are non-binding.

We accept no responsibility and give no guarantee for technical and electrical modifications made after the initial operation of the towing electrics kit by the vehicle manufacturer and which may lead, for example to malfunction of the trailer socket or its peripheries.

F

Un usage inapproprié ou des modifications du kit de connexion électrique, ou des pièces qui le composent, entraînent l'expiration de tout droit à la garantie. Lors d'une conduite sans remorque ou porteur de charge, les adaptateurs utilisés doivent, le cas échéant, toujours être enlevés de la prise de courant. Sous réserve de modifications de constructions, équipement, couleurs ou erreur. Données et illustrations sous toute réserve.

Nous n'assumons aucune responsabilité ni garantie pour les modifications techniques et électroniques ayant été effectuées après la première mise en service du kit de connexion électrique par le constructeur automobile et ayant mené par exemple à des mauvais fonctionnements de la prise de remorque ou de sa périphérie.

①

In caso di uso improprio o di modifiche del kit elettrico e delle componenti del medesimo, ogni diritto di garanzia decade. Durante la guida senza rimorchio o portacarichi, togliere sempre gli adattatori dalla presa di corrente. Con riserva di modifiche relative a costruzione, equipaggiamento, colore e salvo errori. Tutte le indicazioni e illustrazioni non sono vincolanti.

Per le modiche tecniche ed elettroniche eseguite dopo la prima messa in funzione del kit elettrico da parte del costruttore del veicolo, e che portano, per esempio, a un malfunzionamento della presa del rimorchio o della sua periferia, non ci assumiamo alcuna responsabilità!

Il modulo del rimorchio non è idoneo alla diagnosi! Nel caso in cui processi diagnostici o apparecchiature di prova controllate da software dovessero generare dei protocolli d'errore in rapporto diretto o indiretto con l'uso del rimorchio, si deve staccare il modulo del rimorchio dal conduttore per la presa del rimorchio, e avviare nuovamente la diagnosi!
